

220 Inshore

The 220IS is the first in a series of shallow-draft inshore boats from EdgeWater. Featuring a broad, stable, Single Piece Infusion (SPI) hull, the 220 floats shallow for backwater fishing, and is large and strong enough for runs offshore. Two livewells, massive storage compartments, locking rod boxes, and loads of standard features make the base model ready to go. The boat is also ready to trick out with options including trolling motor, t-tops, and seating. Check out your EdgeWater dealer for all the details.

SPECIFICATIONS

Length	22'/6.7 m
Beam	8' 6"/2.6 m
Draft (Boat Only)	13"/33 cm
Boat Weight (approx)	2,400 lbs/1089 kg
Weight Capacity	2,200 lbs/997 kg
