

## 318 Center Console

We didn't just push the technological envelope with the 318CC, we tore it to shreds. Taking the very best innovations from our entire line and adopting cutting-edge applications from various manufacturing disciplines has produced a boat that represents a major breakthrough in composite design. The all-new EdgeWater Single Piece Infusion (SPI) process gives the 318CC a strength-to-weight ratio that is unmatched on the water. This translates to a boat with better handling, excellent fuel efficiency, and unbeatable range. Combined with a generous list of up-graded standard features, any serious angler will quickly realize that today's open molded polyester boats can't compare to the 318CC.

1. Large 130 sq. ft. cockpit with in-deck fishbox, baitwell and optional folding seat.
2. Stand-up console with head, sink, shower and additional gear storage.
3. Custom seating, hardtop and spacious console with room for large electronics monitors.
4. Insulated in-deck fishboxes, bow seating and optional electric elevating table/casting deck.

- 245 CC** Yamaha F250 or Twin F150 Four Stroke
- 265 CC** Yamaha Twin F225 or Twin F250 Four Stroke
- 265 EX** Yamaha Twin F225 or Twin F250 Four Stroke
- 318 CC** Yamaha Twin F250 Four Stroke or Twin Z300 Two Stroke

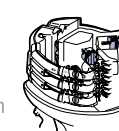

Powder Coated Rails and Frames

## INNOVATION. PERFORMANCE. RELIABILITY.

**In-Bank-Exhaust.** Reverses the conventional 4 stroke configuration for a more compact marine design.

**Long Tube Intake Tracks** are precision-tuned to maximize air velocity, delivering added low-end and mid-range torque.

**The Top-Mounted Flywheel** saves space and keeps sensitive electrical components away from any water intrusion.
